

Thrive Marriage Mentorship Program

For one price, Thrive offers a marriage ministry for your church, a training program for mentors, and relief to you, the one who has been holding so much for so long.

Pastors, We're Here to Help!

You need easy. You need a biblical, affordable, user friendly program to help the marriages in your church succeed.

You (Pastors) are already working hard. You need support. The marriages in your church are suffering and you didn't go to school to be a counselor! The one class you took didn't prepare you for today's marital challenges. You need easy. You need a biblical, affordable, user friendly program to help the marriages in your church succeed.

Not Just Tips & Techniques

Many marriage mentor programs are full of tips and techniques or come with an index of scripture to apply to various problems.

Instead, we dive into the narratives under conflict and poor communication, creating deeper connection. We teach story engagement that offers discipleship leading to transformation. Thrive is not about content, but creating space for couples to engage with one another. We know that content doesn't change anyone.

“We designed Thrive not just to care for your people, but with your needs as a pastor in mind.”

Deeper Connections

We understand marriages and we know what it takes to lead people toward growth.

We're giving you the deep stuff, drawn from current work in the counseling room. As practicing marriage counselors with 50 years experience in pastoring, discipling, counseling, and leading christian ministries, we offer a unique blend of theology and psychology to challenge spouses to look beyond quick fixes, tips, and techniques. Everything we do drives spouses to deeper connection.

"An affordable, user-friendly, biblically based Marriage Program."

Ideal for churches who host marriage retreats - organized into two tracks or levels.

“I (Pete) longed for more in our marriage and for a much deeper connection. I (Chris) longed for more but had fear of going deeper. Before Thrive, we were basically going through the motions in our marriage. We are so grateful for the depth of healing that has occurred since diving deep into Thrive. The invitations to enter hard places and the encouragement and care that is offered by the Thrive team, in all of that, has brought us to conversations and places we never imagined we would go. We are finding a safe resting place in one another that we never knew existed.”
